**CIVIL AIR PATROL MEMBERSHIP**

CAPR 39-2, 3 August 2011 is supplemented as follows:

**1-5.** Due to continued heightened security awareness, and with the elimination of the adverse member action of non-renewal, increased emphasis must be placed on a thorough review of the suitability of new applicants to Civil Air Patrol. It is the policy of California Wing that the commander will appoint and utilize the unit membership board to review the eligibility and suitability of all prospective new senior members. Unit commanders may also seek membership board review and approval of prospective cadet members. Recommendations of approval will be documented and filed with the new member's personnel records.
